ELI/ELL/ESL Placement Test Information

The CaMLA English Placement Test is a computerized **60 minute** timed test. You must take this test if you have graduated from middle school in a non-English speaking country.

There are 80 questions divided into 4 parts:

1. Listening comprehension
2. Grammatical knowledge
3. Vocabulary range
4. Reading comprehension

Listening comprehension is the **first** part. You will only hear each question **ONCE** and you can **NOT** go back and listen again.

Re-testing

- You may take the CaMLA EPT a second time after 24 hours. The higher of your two scores will be used to place you in a class.
- If you wish to take the test for the third and final time, you must wait for three (3) months before doing so.
- If you are currently enrolled in the ELI or in an ESL course, you may not test again until two (2) weeks before final exams. The placement test cannot be used to substitute for course performance.
- Test results expire after one calendar year. If you have not been enrolled as a student for one academic year or longer, regardless of how many times you have already taken the placement test, you must re-test and then enroll in the level indicated.

I have read the testing rules.
